PROFILE

I'm an Associate Software Engineer with a proven track record of designing and delivering secure, scalable, and high-performance applications. I specialize in building full-stack solutions with **PHP** and **Laravel**, and developing cross-platform and native mobile apps using **Flutter**, **Swift** and **Kotlin**. I'm dedicated to leveraging modern architecture patterns and clean code principles to create intuitive, user-centric experiences.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

DayZ Solutions (Pvt.) Ltd.

05/2025 – Present

Nittambuwa, Sri Lanka

Deurbeslag Gigant – Lead Engineer

Centralized **E-Commerce Inventory Management System** for a Dutch retail company, managing inventory and orders across multiple online platforms.

- Lead developer for V1, responsible for stability, secure backend features, and ongoing feature delivery using Laravel, Alpine JS, Livewire, REST APIs, and MySQL.
- Automated manual workflows, modernized legacy code, and improved reliability and performance across inventory, orders, and platform integrations.
- Integrated and maintained APIs with multiple external e-commerce platforms to synchronize stock and order data.
- Designed and am building the next generation with Filament tables and a unified Flux UI based design system for a cleaner, more efficient UX.
- Refactored complex Alpine JS components into simpler Laravel/Livewire implementations and upgraded dependencies for better maintainability and long-term stability.
- Developing a commercial, multi-tenant version of V2 to be used by other businesses to manage their e-commerce operations.

Tech: PHP, Laravel, Livewire, AlpineJS, Tailwind CSS, MySQL, REST APIs, BitBucket

ECore Web App

Company automation software for **BetonStorten.nl** , designed to manage orders, inventory, machinery, resources, work orders, and personnel. This is the core back-end where all heavy logic, algorithms, calculations, and data persistence happen.

- Implemented and managed critical business logic like order processing, inventory tracking, etc. using Laravel.

- Built and optimized database schema and calculations to ensure data integrity and performance under heavy load.
- Managed APIs that the mobile app consume for real-time updates, order sync, and live status.
- Implemented performance optimizations and bug fixes to ensure stability and scalability across the system.

Tech: Laravel, PHP, MySQL, REST APIs, TailwindCSS, Livewire, BitBucket

ECore Mobile

A mobile-friendly interface connected to the main web app via APIs. Same feature set (orders, work orders, products, personnel, etc.). It displays data, allows actions like order creation, status updates, etc., while business logic remains in the web platform.

- Developed features with **Flutter** and **Dart**, ensuring a clean and usable mobile interface.
- Integrated real-time API calls for order creation, product updates, work order handling, and status sync.
- Applied modern UX design principles to boost usability and reduce friction in mobile workflows.
- Code optimizations for better performance and hassle-free experience.

Tech: Flutter, Dart, REST APIs, Git, GitHub

Software Engineer

Freelance

01/2026 – Present

Remote

UNiFY – Multi-Feature Sports Ecosystem (US Client)

Mobile and backend developer on **UNiFY**, a multi-platform sports app for NBA, WNBA, NFL, and NCAA fans, built with a Flutter frontend and Python/Flask backend. Our team took over a partially completed codebase from a previous vendor, and I joined as the second developer, sharing responsibility for stabilizing, refactoring, and extending both the app and API.

- Inherited and stabilized an existing Flutter app and Python/Flask API, fixing critical bugs, crashes, and data mismatches between client and backend.
- Refactored key modules to resolve architectural and design issues, improving API contracts, maintainability, and overall reliability.
- Worked on real-time sports features using WebSockets (live scores, chat), media streaming, rich push notifications, and NFC “Baller Band” integration.

Tech: Flutter, Dart, Provider, go_router, REST & WebSockets, push notifications, NFC, Python, Flask, PostgreSQL, Redis, AWS, Stripe

Web Developer

Freelance

10/2022 – 06/2025

Hybrid

Custom Web Solutions & Portfolio Development

Delivered a range of web apps and portfolio sites tailored to client needs.

- Designed secure, responsive, and scalable solutions
- Developed full-stack features using PHP & MySQL
- Implemented modern UI with TailwindCSS and JavaScript

Tech: PHP, MySQL, TailwindCSS, JavaScript, Github

Bright Achievers Migration & Consultancy Website

Business website for a Sri Lankan consultancy firm.

- Built and deployed a responsive full-stack solution
- Streamlined client management and inquiry processes
- Enhanced operational efficiency for day-to-day workflows

Tech: PHP, Laravel, TailwindCSS, MySQL, GitHub

Photographer Portfolio Website

Dynamic portfolio for a professional photographer.

- Created a custom admin panel for self-managed galleries
- Implemented dynamic content management for new uploads
- Designed a clean, responsive interface for showcasing work

Tech: PHP, MySQL, TailwindCSS, JavaScript, GitHub

C# Developer

Freelance

08/2023 – 05/2025

Hybrid

Pubudhu Pharmacy Management System

Developed and deployed a custom inventory management system for a pharmacy in Gampaha, Sri Lanka. Enhanced operational efficiency and streamlined inventory tracking.

Tech: C#, .NET Framework, SQL, Git

Supermarket Management System

Engineered a two-part solution for a local supermarket: a cashier system and an inventory management system, both connected to a single SQL database for real-time accuracy.

Tech: C#, .NET Framework, SQL, Git

EDUCATION

Bachelor of Engineering in Software Engineering

Tampere University of Applied Sciences

08/2026 – Present

Tampere, Finland

Admitted to the Bachelor of Engineering in Software Engineering at Tampere University of Applied Sciences (TAMK), a 240-ECTS, four-year programme starting in August 2026, focused on modern software development, web and mobile applications, and practical, project-based learning for international software engineering roles.

Pearson BTEC Level 5 HND in Computing - Software Engineering

ESOFT Metro Campus - Gampaha

02/2023 – 02/2025

Gampaha, Sri Lanka

Completed the Pearson BTEC Level 5 Higher National Diploma in Computing (Software Engineering) with an overall grade of Merit, covering programming, databases, networking, security, software development lifecycles, data structures and algorithms, web development, and UX/UI.

Ofqual-regulated qualification: QN 603/7596/6, Reg. No. RG 10904.

Pearson Assured Level 3 Diploma in Information Technology (DiTEC)

ESOFT Metro Campus - Gampaha

07/2022 – 08/2023

Gampaha, Sri Lanka

Completed the Pearson Assured Level 3 Diploma in Information Technology (DiTEC) with an overall grade of Merit, a 1,200-hour programme covering IT concepts, MS Office productivity, computer hardware, networking, internet and web design, graphics and multimedia, software engineering, Python programming, databases with SQL, C# programming, and a final practical project.

Pearson Assured programme: Pearson ID SF96401, ESOFTE ID E176422

Assured Level 3 Diploma in English (DiE)

ESOFTE Metro Campus - Gampaha

07/2022 – 08/2023

Gampaha, Sri Lanka

Completed the ESOFTE Assured Level 3 Diploma in English (DiE), a communicative, skills-based programme with 15 units and 4 assessments in grammar, vocabulary, reading, writing, listening, speaking, presentations, and viva, achieving a Pass grade and being awarded the diploma.

Diploma in English programme: ESOFTE ID E176422, Ref. GAM0170214, REG ID 00148929.

General Certificate of Education Ordinary Level Exam

Henegama Central Collage - National School

2022

Gampaha, Sri Lanka

Passed the GCE Ordinary Level examination with strong results: A in Information & Communication Technology, A in English, B in Mathematics, B in Science, B in Sinhala, and C grades in Commerce, Art, History, and Buddhism.

PROFESSIONAL SKILLS

Leadership & Ownership

Accountability

Problem Solving & Critical Thinking
